1994 Annual Index for Simulation

Issues from Volume 62, Number 1 through Volume 63, Number 6

The following 1994 Annual Index contains two parts: A title and keyword listing, and an author listing. All pertinent information concerning an article will be found in the author listing under the name of the first author. Co-authors, title, month of issue, pages, and the number of references, figures, and tables are shown.

The title and keyword listing shows the title, name of the first author, the page number on which the article begins, and month of publication. Also listed are keywords followed by title entries for the article in question. The average article is listed five times. Keywords are marked by an asterisk, followed by the title entry; a slash/ indicates that a title has been truncated.

All material published in the journal has been indexed except letters to the editor, calls for papers, and notices and programs of meetings. Advertisers are not indexed.

1994 Title and Keyword Index

A Discrete-Event Object-Oriented Modeling Environment for Sawmill Simulation	Randhawa, S.	119	Feb.
A Knowledge-Based Simulation Approach (K-SIM) for Train Operation and Planning	Sharma, G.	381	June
A Process Oriented Manufacturing System Simulation to Measure the Effect/	Huq, Z.	218	April
A Simulation Study of DQDB Metropolitan Area Network	Catania, V.	158	March
A View on the Future Nuclear Simulation Systems	Akiyama, M.	394	June
Accreditation*The Use of Case Tools as an Aid to the Verification/	Gledhill, D.W.	329	Nov.
AI & Simulation	Wildberger, M.	5	Jan.
AI & Simulation	Wildberger, M.	73	Feb.
AI & Simulation	Wildberger, M.	145	Mar.
AI & Simulation	Wildberger, M.	217	April
AI & Simulation	Wildberger, M.	285	May
AI & Simulation	Wildberger, M.	353	June
AI & Simulation	Wildberger, M.	5	July
AI & Simulation	Wildberger, M.	73	Aug.
AI & Simulation	Wildberger, M.	142	Sept.
AI & Simulation	Wildberger, M.	359	Dec.
AIM*FACTOR/AIM: A Manufacturing Simulation	Lilegdon, W.	367	June
Aircraft fires*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
Aircraft survivability*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
Allowance Setting *A process oriented manufacturing System	Huq, Z.	218	April
An Approach to Standardizing the Simulation to Knowledge System Interface	Russell, C.	143	Sept.
Analysis in Manufacturing Systems Simulation: A Case Study	Galbraith, L.	368	Dec.
Armillaria*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Armor*Dynamic Terrain	Moshell, J.	29	Jan.
Arrival process*Modeling Time-Varied Arrival Rates:	Zhu, Z.	146	Mar.
Artificial intelligence*An Approach to Standardizing the Simulation	Russell, C.	143	Sept.
Artificial intelligence*Real-time Simulation-Based Planning for/	Fishwick, P.A.	299	Nov.
Ascertaining Important Features for Industrial Simulation Environments	Mackulak, G.T.	211	Oct.
Automatic Guided Vehicle*Traditional and Tandem AGV System Layout	Choi, H.	85	Aug.
Automatic programming*Automatic Simulator Generation System	Kang, S.	360	Dec.
Automatic Simulator Generation System	Kang, S.	360	Dec.
Autonomy*Real-time Simulation-Based Planning for/	Fishwick, P.A.	299	Nov.
Banking*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.

Aircraft fires*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
Aircraft survivability*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
Allowance Setting *A process oriented manufacturing System	Huq, Z.	218	April
An Approach to Standardizing the Simulation to Knowledge System Interface	Russell, C.	143	Sept.
Analysis in Manufacturing Systems Simulation: A Case Study	Galbraith, L.	368	Dec.
Armillaria*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Armor*Dynamic Terrain	Moshell, J.	29	Jan.
Arrival process*Modeling Time-Varied Arrival Rates:	Zhu, Z.	146	Mar.
Artificial intelligence*An Approach to Standardizing the Simulation	Russell, C.	143	Sept.
Artificial intelligence*Real-time Simulation-Based Planning for/	Fishwick, P.A.	299	Nov.
Ascertaining Important Features for Industrial Simulation Environments	Mackulak, G.T.	211	Oct.
Automatic Guided Vehicle*Traditional and Tandem AGV System Layout	Choi, H.	85	Aug.
Automatic programming*Automatic Simulator Generation System	Kang, S.	360	Dec.
Automatic Simulator Generation System	Kang, S.	360	Dec.
Autonomy*Real-time Simulation-Based Planning for/	Fishwick, P.A.	299	Nov.
Banking*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.

Bondgraphs*Modeling of Multibody Systems for	Zeid, A.	7	Jan.
Book Review	Moshell, J.M.	116	Feb.
Book Review	Obaidat, M.S.	310	May
Book Review	Karayanakis, N.	121	Aug.
Book Reviews	Mareschal, M.	201	Mar.
Breweries*Simulation = $success	Clarke, F.R.	223	Oct.
Broadband-ISDN*A Distributed Approach to Real-Time Payments	Lee, T	180	Mar.
Building a Port Simulator	Pollatschek, M.A.	179	Sept.
Building Intelligence Into an Autopilot — Using Qualitative Simulation to/	Cellier, F.	354	June
CCTT*Dynamic Terrain	Moshell, J.	29	Jan.
Clinical chemistry*Simulation Modeling as a Tool to Evaluate	Berchtold, G	108	Aug.
Clymer, Benjamin, In Memoriam		123	Aug.
Clouds*Visual Translucent Algorithm	Boehm, A.	91	Feb.
Code generation*Automatic Simulator Generation System	Kang, S.	360	Dec.
Colour*Use of Colour to Describe	Morris, A.	20	Jan.
Combined simulation*ESCADRE: A Design Methodology and a Toolkit	Chervi, P.	161	Sept.
Communication networks*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
Computer generated forces*Real-time Simulation-Based Planning for/	Fishwick, P.A.	299	Nov.
Computer simulation*Evaluation of Alternative Functional	Gonzalez, B.	20	July
Connection Machine*Identification and Control of a Simulated Distillation/	Gariglio, D.	393	Dec.
Constrained optimization via Genetic Algorithms	Homaifar, A.	242	April
Constrained optimization*Constrained Optimization Via Genetic	Homaifar, A.	242	April
Control Analysis*Constrained Multibody Dynamics	Yae, K.H.	329	May
Control System* The Software Simulator as an Effective Tool	Rihar, M.	6	July
Control systems*Simulation = $success	Clarke, F.R.	223	Oct.
Control valve*Presssure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Control*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
Controls*Modeling of Multibody Systems for	Zeid, A.	7	Jan.
Dead Reckoning*The Performance Assessment of the/	Lin, K.C.	318	Nov.
Decision-making*Building Intelligence Into an Autopilot	De Albornoz, A.	354	June
Design*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
Development Tools*Knowledge Based Simulation	Merkuryeva, G.	74	Feb.
Digital modeling*Automatic Simulator Generation System	Kang, S.	360	Dec.
Digital Simulation of a Pneumatic Pressure Regulator	Kukulka, D.J.	252	Oct.
Director at Large listing		174	Sept.
Discrete event models*Modeling Time-Varied Arrival Rates:	Zhu, Z.	146	Mar.
Discrete event simulation*Building A Port Simulator	Hayuth, Y.	179	Sept.
Discrete-event*Objects for Simulation	Baveco, J.M.	42	Jan.
Distillation*Identification and Control of a Simulated Distillation Plant Using/	Gariglio, D.	393	Dec.
Dispatching rule*A process oriented manufacturing System	Huq, Z.	218	April
Distributed algorithm*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
Distributed Approach to Real-Time Payments-Processing in a Partially/	Lee, T.	180	March
Distributed interactive Simulation (DIS)*The Performance/	Lin, K.C.	318	Nov.
DIVA*Identification and Control of a Simulated Distillation/	Gariglio, D.	393	Dec.
Dost, Martin. In Memoriam		158	Sept.
DQDB*A Simulation Study of DQDB Metropolitan	Catania, V.	158	Mar.
Dry bay*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
Dynamic Terrain	Moshell, M.J.	29	Jan.
Dynamic*Presssure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Ecology*Objects for Simulation	Baveco, J.M.	42	Jan.

Ecology*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Electronics assembly*Analysis in Manufacturing Systems Simulation: A Case Study	Galbraith, L.	368	Dec.
Emergency Ambulance Service*Modeling Time-Varied Arrival Rates:	Zhu, Z.	146	Mar.
Emergency Care Management*Evaluation of Alternative Functional	Gonzalez, B.	20	July
Emulation* The Software Simulator as an Effective Tool	Rihar, M.	6	July
Error Sources*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
ESCADRE - A Design Methodology and a Toolkit for Building/	Chervi, P.	161	Sept.
ESCADRE*ESCADRE: A Design Methodology and a Toolkit	Chervi, P.		Sept.
Evaluation of a Classification Algorithm by Simulation	Borden, A.	291	Dec.
Evaluation of Alternative Functional Designs in an Emergency Department	Lopez-Valcarcel, B.	20	July
Event-driven Simulation*ESCADRE: A Design Methodology and a Toolkit	Chervi, P.	161	Sept.
Evolutionary techniques*Identification and Control of a Simulated Distillation/	Gariglio, D.	393	Dec.
Experimental design*Using Experimental Design Techniques for Spacecraft	Gordon, S..	303	May
Explosion*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
Facility Layout*Traditional and Tandem AGV System Layout	Choi, H.	85	Aug.
FACTOR/AIM: A Manufacturing Simulation System	Pritsker, A.A.B.	367	June
Fault characterization*Building Intelligence Into an Autopilot	De Albornoz, A.	354	June
Fault detection*Building Intelligence Into an Autopilot	De Albornoz, A.	354	June
Financial institutions*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
Flow*Presssure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Fuel systems*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
Fuzzy arithmetic*Qualitative Simulation of Electrical &	James, P.	47	July
Fuzzy rule trees*Induction of Classification rules from noisy Sonar	Clymer, J.	256	April
Fuzzy rules*Qualitative Simulation of Electrical &	James, P.	47	July
Fuzzy sets*Qualitative Simulation of Electrical &	James, P.	47	July
Gaussian field*Visual Translucent Algorithm	Boehm, A.	91	Feb.
Genetic algorithms*Constrained Optimization Via Genetic	Homaifar, A.	242	April
Gorman, Gen. Paul F., SCS Honors/	Cynamon, J.	279	Nov.
GUI*Objects for Simulation	Baveco, J.M.	42	Jan.
High explosive projectiles*Simulation study Aids Halon Replacement/	Crawford, A.B.	282	Nov.
High Speed Networks*A Simulation Study of DQDB Metropolitan	Catania, V.	158	Mar.
Hospital Emergency department*Evaluation of Alternative Functional	Gonzalez, B.	20	July
Hydrology*Dynamic Terrain	Moshell, J.	29	Jan.
Hypothesis test*Randomness of Low-Order	DeArmon, J.	373	June
Identification and Control of a Simulated Distillation Plant Using/	Gariglio, D.	393	Dec.
Importance Sampling Simulation	Obal II, W.	98	Feb.
Importance sampling*Importance Sampling Simulation	Obal II, W.	98	Feb.
In Memoriam: Ben Clymer		123	Aug.
In Memoriam: Martin Dost		158	Sept.
In Search of a Take-Home 3D Modeling System	Oyarzun, F.	61	Jan.
India*A Knowledged Based Simulation Approach	Sharma, G.	381	June
Individual based*Objects for Simulation	Baveco, J.M.	42	Jan.
Induction of Classification Rules from Noisy Sonar Features	Clymer, J.R.	256	April
Induction*Induction of Classification rules from noisy Sonar	Clymer, J.R.	256	April
Inductive reasoning*Building Intelligence Into an Autopilot	De Albornoz, A.	354	June
Industrial Control* The Software Simulator as an Effective Tool	Rihar, M.	6	July
Industrial controls*Use of Colour to Describe	Morris, A.	20	Jan.
Industrial Safety*Use of Colour to Describe	Morris, A.	20	Jan.
Industry News	O'Neill, B.	27	Jan.

Industry News	Cynamon, J.	316	Nov.
Integrated Environments*Ascertaining Important Features for Industrial/	Mackulak, G.T.	211	Oct.
Inventory models*Spreadsheet Simulation Model For	Przasnyski, Z.	32	July
JIT*Analysis in Manufacturing Systems Simulation: A Case Study	Galbraith, L.	368	Dec.
K-SIM*A Knowledge Based Simulation Approach	Sharma, G.	381	June
KBSS architecture*Knowledge Based Simulation	Merkuryeva, G.	74	Feb.
Knowledge based Sim. System*Knowledge Based Simulation	Merkuryeva, G.	74	Feb.
Knowledge Based Simulation Systems: A Review	Merkuryeva, G.	74	Feb.
Knowledge-based simulation*Ascertaining Important Features for Industrial/	Mackulak, G.T.	211	Oct.
Knowledge Based Simulation*A Knowledged Based Simulation	Sharma, G.	381	June
Knowledge Based systems*An Approach to Standardizing the Simulation	Russell, C.	143	Sept.
Laboratory management*Simulation Modeling as a Tool to Evaluate	Berchtold, G.	108	Aug.
Lagrange*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
Libration*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
Loosely-coupled*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
MAN*A Simulation Study of DQDB Metropolitan	Catania, V.	158	Mar.
Manufacturing simulation*An Approach to Standardizing the Simulation	Russell, C.	143	Sept.
Manufacturing*FACTOR/AIM: A Manufacturing Simulation	Lilegdon, W.	367	June
Memorial for Ben Clymer		123	Aug.
Message from the President	Sisle, M.	172	Sept.
Message-Oriented Discrete Event Simulation	Chang,W	96	Aug.
Message-Oriented Discrete Event Simulation	Chang, W.	96	Aug.
Method of characteristics*Presssure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Microbial*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Mission planning*Real-time Simulation-Based Planning for/	Fishwick, P.A.	299	Nov.
Modeling language*FACTOR/AIM: A Manufacturing Simulation	Lilegdon, W.	367	June
Modeling of Multibody Systems for Controls Using General Purpose/	Zeid, A.	6	Jan.
Modeling Time-Varied Arrival Rates: An Application Issue in Queueing Systems	Zhu, Z.	146	March
Modeling*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
Modeling*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Multibody dynamics*Constrained Multibody Dynamics	Yae, K.H.	329	May
Multibody systems*Modeling of Multibody Systems for	Zeid, A.	7	Jan.
Multithreaded computers*Trace Driven Pipeline and Cache Simulation	McCrackin,D.	75	Aug.
Multimodeling*Real-time Simulation-Based Planning for/	Fishwick, P.A.	299	Nov.
Network of workstations*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
Network*Dynamic Terrain	Moshell, J.	29	Jan.
Network*Pressure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Neural Nets*Identification and Control of a Simulated Distillation/	Gariglio, D.	393	Dec.
Nonlinear optimization*Constrained Optimization Via Genetic	Homaifar, A.	242	April
Numerical*Pressure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Object Oriented programming*Objects for Simulation	Baveco, J.M.	42	Jan.
Object-Oriented design*ESCADRE: A Design Methodology and a Toolkit	Chervi, P.	161	Sept.
Object-oriented modeling*A Discrete-Event Object-Oriented	Randhawa, S.	119	Feb.
Objects for Simulation: Smalltalk and Ecology	Baveco, J.M.	43	Jan.
OpEM*Induction of Classification rules from noisy Sonar	Clymer, J.	256	April
Orbits*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
Parallel processing*Knowledge Based Simulation	Merkuryeva, G.	74	Feb.

Payments-Processing*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
Performance Analysis*A Simulation Study of DQDB Metropolitan	Catania, V.	158	Mar.
Performance*Objects for Simulation	Baveco, J.M.	42	Jan.
Pinus Radiata*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Pipe*Pressure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Piston pressure sensing Unit*Digital Simulation of a Pneumatic/	Kukulka, D.J.	252	Oct.
Pneumatic pressure*Digital Simulation of a Pneumatic Pressure/	Kukulka, D.J.	252	Oct.
Poppet valve*Digital Simulation of a Pneumatic Pressure/	Kukulka, D.J.	252	Oct.
Population-Dynamics*Objects for Simulation	Baveco, J.M.	42	Jan.
Port development*Building A Port Simulator	Hayuth, Y.	179	Sept.
Post Conference report SMC	Wilsey, P.	392	June
President's Message	Chou, J.	30	July
President's Message	Sisle, M.	172	Sept.
Pressure and Flow Transient Response Prediction for Power Plant/	Kohlenberg, M.W.	235	Oct.
Process Simulation Language*Use of Colour to Describe	Morris, A.	20	Jan.
Programming paradigm*Knowledge Based Simulation	Merkuryeva, G.	74	Feb.
Pseudo-random number*Randomness of Low-Order	DeArmon, J.	373	June
Pull system*Analysis in Manufacturing Systems Simulation: A Case Study	Galbraith, L.	368	Dec.
Qualitative Simulation of Electrical and Mechanical Systems	James, P.	47	July
Qualitative simulation*Building Intelligence Into an Autopilot	De Albornoz, A.	354	June
Qualitative simulation*Qualitative Simulation of Electrical &	James, P.	47	July
Quality assurance*Knowledge Based Simulation	Merkuryeva, G.	74	Feb.
Queuing models*Modeling Time-Varied Arrival Rates:	Zhu, Z.	146	Mar.
Railroads*A Knowledge Based Simulation Approach	Sharma, G.	381	June
Randomness of Low-Order Bits in Random Number Generators	DeArmon, J.S.	373	June
Rare event simulation*Importance Sampling Simulation	Obal II, W.	98	Feb.
Real-time Environment and Vehicle Dynamics Simulations for Space/	Guyse, C.	230	April
Real-time simulation*Real-time Environment and Vehicle Dynamics	Guyse, C.	230	April
Real-Time Simulation-Based Planning for Computer Generated Force Simulation	Fishwick, P.A.	299	Dec.
Real-time test*Real-time Environment and Vehicle Dynamics	Guyse, C.	230	April
Recursive formulation*Constrained Multibody Dynamics	Yae, K.H.	329	May
Regression*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
Regulator*Digital Simulation of a Pneumatic Pressure/	Kukulka, D.J.	252	Oct.
Report from SCSC		172	Sept.
Reporter Object: An Analysis Module Which Aids in Verifying	Linton, D.G.	313	May
Reuse*Real-time Environment and Vehicle Dynamics	Guyse, C.	230	April
Robotic Manipulator*Constrained Multibody Dynamics	Yae, K.H.	329	May
Robotics*Modeling of Multibody Systems for	Zeid, A.	7	Jan.
Root architecture*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Sawmills*A Discrete-Event Object-Oriented	Randhawa, S.	116	Feb.
Scheduling heuristics*An Approach to Standardizing the Simulation	Russell, C.	143	Sept.
Seeability*Visual Translucent Algorithm	Boehm, A.	91	Feb.
Shop control*A process oriented manufacturing System	Huq, Z.	218	April
Significance of digits*Randomness of Low-Order	DeArmon, J.	373	June
SIMNET*Dynamic Terrain	Moshell, J.	29	Jan.
SIMSCRIPT II.5*A process oriented manufacturing System	Huq, Z.	218	April
SIMSCRIPT II.5*Simulation Modeling as a Tool to Evaluate	Berchtold, G.	108	Aug.
SIMSCRIPT*Evaluation of Alternative Functional	Gonzalez, B.	20	July
Simulation = $imulation	Clarke, F.R.	223	Oct.
Simulation Environment*Real-time Environment and Vehicle Dynamics	Guyse, C.	230	April

Simulation features*Ascertaining Important Features for Industrial/	Mackulak, G.T.	211	Oct.
Simulation in the Service of Society	McLeod, J.	61	Jan.

Simulation in the Service of Society	McLeod, J.	271	Oct.
Simulation in the Service of Society	McLeod, J.	346	Nov.
Simulation in the Service of Society	McLeod, J.	419	Dec.
Simulation Model to Assist in Managing the HIV Epidemic: IMAP2	Goforth, R.R.	128	Aug.
Simulation Modeling as a Tool to Evaluate Alternative Configuration/	Berchtold, G.	108	Aug.
Simulation Models*Traditional and Tandem AGV System Layout	Choi, H.	85	Aug.
SIMULATION Submission Guidelines		141	Sept.
Simulation*A Discrete-Event Object-Oriented	Randhawa, S.	116	Feb.
Simulation*A Distributed Approach to Real-Time Payments	Lee, T.	180	Mar.
Simulation*A Simulation Study of DQDB Metropolitan	Catania, V.	158	Mar.
Simulation*FACTOR/AIM: A Manufacturing Simulation	Lilegdon, W.	367	June
Simulation*Modeling of Multibody Systems for	Zeid, A.	7	Jan.
Simulation*Spreadsheet Simulation Model For	Przasnyski, Z.	32	July
Simulation*Visual Translucent Algorithm	Boehm, A.	91	Feb.
Simulators* The Software Simulator as an Effective Tool	Rihar, M.	6	July
Simulators*Ascertaining Important Features for Industrial/	Mackulak, G.T.	211	Oct.
Smalltalk*Objects for Simulation	Baveco, J.M.	42	Jan.
Software Review	Uyeno, D.	240	April
Software*The Use of Case Tools as an Aid to the Verification/	Gledhill, D.W.	329	Nov.
Soil*Dynamic Terrain	Moshell, J.	29	Jan.
Spreadsheet Simulation Model for Inventory Management	Przasnyski, Z.	32	July
Spreadsheet*Spreadsheet Simulation Model For	Przasnyski, Z.	32	July
Standardized interface*An Approach to Standardizing the Simulation	Russell, C.	143	Sept.
Start-up*Simulation = $success	Clarke, F.R.	223	Oct.
State transitions*Analysis in Manufacturing Systems Simulation: A Case Study	Galbraith, L.	368	Dec.
Stationkeeping*Using Experimental Design Techniques for Spacecraft	Gordon, S.	303	May
Statistical Analyses*Traditional and Tandem AGV System Layout	Choi, H.	85	Aug.
Steam*Presssure and Flow Transient Response Prediction/	Kohlenberg, M.W.	235	Oct.
Stochastic activity networks*Importance Sampling Simulation	Obal II, W.	98	Feb.
Stochastic Petri nets*Importance Sampling Simulation	Obal II, W.	98	Feb.
Terrain*Dynamic Terrain	Moshell, J.	29	Jan.
The Performance Assessment of the Dead Reckoning Algorithms in DIS	Lin, K.C.	318	Dec.
The Software Simulator as an Effective Tool for Testing Control/	Rihar, M.	6	July
The Use of Case Tools as an Aid to the Verification of Complex Software Systems	Gledhill, D.W.	328	Dec.
Thread scheduling*Trace Driven Pipeline and Cache Simulation	McCrackin,D.	75	Aug.
Toolkit*ESCADRE: A Design Methodology and a Toolkit	Chervi, P.	161	Sept.
Trace Driven Pipeline and Cache Simulation of Multithreaded Computers	McCrackin, D.	75	Aug.
Trace-driven Simulation*Trace Driven Pipeline and Cache Simulation	McCrackin,D.	75	Aug.
Traditional and Tandem AGV System Layouts: A Simulation Study	Choi, H.G.	85	Aug.
Training*Dynamic Terrain	Moshell, J.	29	Jan.

Trains*A Knowledge Based Simulation Approach	Sharma, G.	381	June
Translucent*Visual Translucent Algorithm	Boehm, A.	91	Feb.
Tree*Simulation of Pinus Radiata Root System	Brown, T.N.	286	May
Use of Case Tools as an Aid to the Verification of Complex Software Systems, The	Gledhill, D.W.	329	Nov.
Use of Colour to Describe System States in a Process/	Morris, A.S.	20	Jan.
Validation*The Use of Case Tools as an Aid to the Verification/	Gledhill, D.W.	329	Nov.
Verification*The Use of Case Tools as an Aid to the Verification/	Gledhill, D.W.	329	Nov.
Virtual Reality*Dynamic Terrain	Moshell, J.	29	Jan.
Visual Translucent Algorithm	Boehm, A.	91	Feb.
Weapon systems*ESCADRE: A Design Methodology and a Toolkit	Chervi, P.	161	Sept.
Weather simulators*Visual Translucent Algorithm	Boehm, A.	91	Feb.
Work cell*Simulation Modeling as a Tool to Evaluate	Berchtold, G.	108	Aug.
